

Green-blue Solutions: Transforming Industrial and Business parks across Europe

15 SEPTEMBER 2026 | DUBLIN, IRELAND

Explorium National Sport & Science Centre

IB-Green Final Conference

REGISTRATION

Join us for “*Green-blue Solutions: Transforming Industrial and Business Parks across Europe*”, a one-day conference bringing together local authorities, businesses and sustainability practitioners to explore how climate adaptation and green-blue infrastructure are key to future-proof Europe's industrial landscapes.

Held next to Sandyford Business District, the largest Business Improvement District in Ireland, the event will feature inspiring examples of climate adaptation actions from across Europe, award-winning initiatives and practical discussions on integrating green-blue infrastructure into existing industrial and business parks. Participants will gain new insights and discover how successful pilot projects can be scaled up to create lasting impact.

Secure your spot!

Register [here](#) until 30 August 2026

PRELIMINARY PROGRAMME

09:00	Reception and registration
09:30	Welcome and keynote Rethinking urban and industrial futures in a changing climate
